SUMMARY

I am a motivated and passionate MERN Stack Developer (Beginner level) with a strong interest in building modern, responsive, and user-friendly web applications. I have hands-on practice with HTML, CSS, JavaScript, Tailwind CSS, React.js, Node.js, Express.js, Next.js, and MongoDB, and I enjoy turning ideas into functional web solutions.

As a beginner, I focus on writing clean code, understanding core concepts, and continuously improving my skills through real projects and practice. I have experience creating responsive UI designs, handling frontend logic with React, and building basic backend APIs using Node and Express. I am familiar with connecting applications to MongoDB and managing data efficiently.

I am a quick learner, hardworking, and always eager to explore new technologies. My goal is to grow as a full-stack developer and contribute to real-world projects while learning from experienced teams.

WORK EXPERIENCE

Shopify Developer: Alhuda Sols

July 2024 - April 2025

- Designed and customized responsive Shopify themes focusing on clean UI and smooth user experience.
- Used HTML, CSS, and Liquid to modify layouts and match brand requirements.

MERN Stack Developer: Digital Skills House

Jun 2025 - onward

- Built full-stack web applications using MongoDB, Express.js, React.js, and Node.js with a focus on clean and efficient code.
- Worked on responsive UI, REST APIs, and database integration while continuously improving development skills.

EDUCATION

Intermediate in Computer Science

2022 - 2024

- Studied core subjects including Computer Science, Mathematics, and Information Technology.
- Built a strong foundation in basic programming concepts and logical problem-solving.

Bachelor of Information Technology

Feb 2025 - Feb 2029

- Studied core IT subjects including Programming, Databases, Web Development, and Software Engineering.
- Gained practical knowledge of frontend and backend technologies through academic projects and labs.

ADDITIONAL INFORMATION

- HTML, CSS, JavaScript, Tailwind CSS, React.js, Next.js, Node.js, Express.js, MongoDB, REST APIs, Firebase (basic), Git & GitHub, Gitlab
- VS Code, npm, Postman, Chrome DevTools, Figma (basic)
